

We are hiring!

Senior Consultant SAP BI (all genders)

Germany-wide

Your responsibilities

- Provide innovative process and organizational consulting service to optimize our customers' processes in the area of SAP Business Technology Platform (BTP) Analytics
- Participation in workshops with key users to understand the system requirements and processes
- Understand our customers' needs from a holistic approach providing a competent answer
- Gather requirements, develop solutions and transfer them into structured concepts
- Conception, implementation, documentation, testing and adaptation of customer systems
- Depending on the stage of your personal development, the ability to work independently increases. From processing work packages and implementing concept to management of smaller and larger projects.

Our requirements

- Professional experience in consulting SMEs in various sectors of a minimum of 3 years
- Technical understanding of SAP products in the area of business intelligence and system architecture
- Customer orientation paired with the motivation to satisfy our customer
- Experience in requirements analysis and architecture design
- Knowledge of German and English at C level according to CEFR
