

We are hiring!

Digitalization Architect BTP (all genders)

Your responsibilities

- Advancing our knowledge in the areas of cloud technologies and, more specifically, in SAP BTP
- Holistic design and implementation of business processes using BTP and S/4HANA
- Developing solutions for businesses (gathering of requirements, feasibility and gap analysis, architectural design, security, implementation and support) using cloud- and web technologies, as well as add-on products that are SAP S/4 based on the SAP BTP
- Professional training and mentoring of colleagues in the above-mentioned technologies
- Supporting colleagues and projects with technical expertise in systems design and analysis

Our requirements

- Successful completion of studies in computer science
- Relevant work experience of 5 years.
- In-depth understanding of cloud infrastructure, platforms, networking, security, identity access management and system architecture concepts
- Experience in requirements analysis, architecture and system design as well as in creation of technical concepts including cloud scenarios
- Distinct curiosity and willingness to learn
- English on C-Level according to CEFR
